# Agenda

- What is a project?
- Where do we find project management?
- What are the skills of a project manager?
- How do we use project management skills in class?
- How do we integrate project management into our courses?

**WHAT  
IS A  
PROJECT**

# What is a Project?

It is a **temporary** endeavor undertaken to create a **unique** product, service or result.

**Temporary:** Project has a defined beginning and end in time

**Unique:** in that it is not a routine operation, but a specific set of operations designed to accomplish a singular goal.

# Examples & Size of Projects?

Who manages a project depends on: e.g.  
Significance, Time, Resources, Budget, Impact, Profit

# What is Project Management?

## What is Project Management?

**Project management is a methodical approach to planning and guiding project processes from conception to completion.**

**Project management, is the application of knowledge, skills, tools, and techniques to project activities to meet the project requirements.**

# 10 Must-Have Project Management Skills for Everyone

1. **Leadership abilities**
2. **Knowing how to delegate tasks**
3. **Communication**

8. **Integrity**
9. **Organization**
10. **Team development**

<https://project-management.com/10-skills-that-make-a-perfect-project-manager/>

# Why projects fail?

How the customer explained it

How the project leader understood it

How the engineer designed it

How the programmer wrote it

How the sales executive described it

How the project was documented

What operations installed

How the customer was billed

How the helpdesk supported it

What the customer really needed

# Top 10 Main Causes of Project Failure

1. Poor Preparation
2. Inadequate Documentation and Tracking
3. Bad Leadership
4. Failure to Define Parameters and Enforce Them
5. Inexperienced Project Managers
6. Inaccurate Cost Estimations
7. Little Communication at Every Level of Management
8. Culture or Ethical Misalignment
9. Competing Priorities
10. Disregarding Project Warning Signs

Following will lead to Project success:

- Adequate employee training
- Project management
- Software management transparency

How could you integrate project management into your existing courses?

# Program requirements

# Electives based on college/career goals

# Project+ Objective Domains

<b>Domain</b>	<b>% of Exam</b>
<b>1.0 Project Basics</b>	36%
<b>2.0 Project Constraints</b>	17%
<b>3.0 Communications and Change Management</b>	26%
<b>4.0 Project Tools and Documentation</b>	21%
<b>Total</b>	100%
