CompTIA Linux+ is for the IT pro who will use Linux to manage everything from cars and smartphones to servers and supercomputers, as a vast number of enterprises use Linux in cloud, cybersecurity, mobile and web administration applications.

The new CompTIA Linux+ exam has been updated to align with the skills needed to support today’s IT infrastructure. The new certification can be earned by passing a single exam developed in-house by CompTIA using our best-in-class ISO accredited process.
