Official CompTIA Content for Instructor-Led Training:

CompTIA A+ Core 1 and Core 2

Official CompTIA Content for Instructor-Led Training is designed with the instructor in mind, providing insights and tools on how to successfully train learners pursuing their CompTIA A+ Core 1 and Core 2 Exam.

Overview

The Official CompTIA A+ Core 1 & Core 2 Instructor and Student Guides (220-1001 and 220-1002) have been developed by CompTIA with input from instructors across the world. Rigorously evaluated by third-party subject matter experts to validate adequate coverage of both the Core 1 and Core 2 exam objectives in an integrated approach, the Official CompTIA A+ Core 1 & Core 2 Instructor and Student Guides teach the essential skills and information needed to troubleshoot, problem solve and help learners understand issues ranging from networking and operating systems, to mobile devices and security, preparing candidates to take the CompTIA A+ Core 1 and Core 2 Exam.

Official Content:
- The Official CompTIA A+ Core 1 & Core 2 Instructor Guide (Exams 220-1001 and 220-1002) – available in print and eBook
- The Official CompTIA A+ Core 1 & Core 2 Student Guide (Exams 220-1001 and 220-1002) – available in print and eBook
- CompTIA CHOICE Digital Learning Platform – included with purchase of print and eBook
- The Official CompTIA A+ Core 2 CompTIA Labs (Exam 220-1002)
Why is Official CompTIA Content different?

- **For Exam Takers by the Exam Developer** - Official CompTIA Content is the only study material exclusively developed by CompTIA for the CompTIA certification candidate.
- **Designed for Instructors by Instructors** - Developed on the principle that “people learn best from other people,” the Official CompTIA A+ Guides are specifically designed for expert-facilitated delivery. More than 200 instructors were involved in the development of A+ Official Content providing feedback through focus groups, reviews, and surveys.
- **Complete Library** - No other content library covers all exam objectives for all certifications. It provides complete breadth, depth, and currency of material unavailable with competitors.

**Key Features and Benefits**

- **Robust Assessment** - Practice questions for each lesson and a final assessment covering all lessons, more than 300 questions in total, are available to help students practice and demonstrate what they have learned. Additionally, performance-based questions help students apply knowledge in actual scenarios.
- **Integrate Active Learning** - Each topic has at least one activity enabling students to practice guidelines and procedures, as well as solidify understanding of the informational material presented in the course. Activities present a job-plausible scenario or job-realistic assignment and then provide step-by-step instructions for how to approach the problem at hand. Activities may also require the student to analyze sample data, engage in structured discussion or analyze case studies.
- **Alignment and Consistency Across Book, Labs and Assessment** - The book, labs, and assessment work together with a similar approach and voice ensuring that instructors and students have a cohesive, “single-sourced” solution for their A+ courses. Activities within the book inform the classroom labs and the virtual labs designed for the course. Assessments are based on lessons in the book and includes a final cumulative assessment.
- **Engaging Video Program Developed Exclusively for CompTIA by ITProTV** - Videos developed exclusively for CompTIA by ITProTV provide short, engaging demonstrations of key activities in the course. The videos provide an alternative to hands-on demonstrations for virtual environments or for classrooms that do not have access to all equipment mentioned in the course.

Enhanced Learning Through CompTIA CHOICE

The Official CompTIA Content Instructor and Student Guides and accompanying resources are delivered on the CompTIA CHOICE digital learning platform. The CompTIA CHOICE provides access to the following resources:

- **Classroom** - A link to the instructor’s classroom environment
- **eBook** - An interactive online version of the book, along with secure PDF and downloadable versions
- **Files** - Any course files available to download
- **Videos** - Brief videos, developed exclusively for CompTIA by ITProTV, provide demonstrations of key activities in the course
- **Assessment** - A series of different assessments for each lesson as well as an overall self-assessment
- **Performance-based Questions** - Scenario-based interactive exercises to help students apply what they’ve learned
- **Checklists** - Step-by-step procedures for recurring IT tasks that are part of the course objectives and as post-class references
- **Links** - Helpful links to certification exam information, CompTIA’s IT Careers blog and additional resources for exam prep
- **Locker** - A resource allowing for secure file exchange with students

**Labs**

CompTIA Labs, hosted by Learn on Demand Systems, allow students to learn in actual software applications through a remote lab environment. Labs allow students to practice what they are learning using real, hands-on experiences. Students have access to the software environment for 6 months after a CompTIA Labs access key is redeemed, providing a post-class resource for students to practice their skills.

**Labs Available (Core 2 only):**

- ACTIVITY 1-4: Using Windows Features and Tools
- ACTIVITY 1-7: Managing Files, Folders, and Disks in Windows
- ACTIVITY 2-2: Configuring and Using Linux
- ACTIVITY 2-5: Deploying a Windows Image
- ACTIVITY 3-2: Configuring Windows Applications and Services
- ACTIVITY 3-5: Using Windows Troubleshooting Tools
- ACTIVITY 4-2: Configuring Network Connection Settings
- ACTIVITY 4-8: Troubleshooting Network Connections
- ACTIVITY 5-3: Configuring Shared Resources

**Exam Prep with CertMaster Practice**

CompTIA CertMaster Practice, an online certification exam prep tool, quickly assesses a learner's base of knowledge and fills gaps with personalized remediation and feedback. CertMaster Practice for A+ Core 1 and Core 2 includes performance-based questions. These performance-based questions test your ability to solve problems in a simulated environment. By helping learners focus on their weak areas, CertMaster Practice builds their confidence and ensures retention of the material.
