

Get CompTIA Cloud+ certified with [Organization name]

Level up with in-demand cloud computing skills

[Insert organization-specific copy. E.g. Why the organization is offering the certification.]

CompTIA Cloud+

CompTIA Cloud+ is the only cloud certification specifically designed to map to the real-world demands of cloud operations job roles, validating essential skills necessary to implement, maintain, optimize and troubleshoot cloud-based infrastructure services. It's the only performance-based IT certification that considers cloud infrastructure services within the wider scope of IT systems operations, irrespective of the vendor solution.

Why choose the CompTIA Cloud+ certification?

Boost your career with relevant, in-demand skills

Cloud+ represents the latest advancements in cloud computing, focusing on critical areas such as advanced cloud solutions, security, automation, and cloud management.

Validate your cloud skills

Cloud+ stands out as the only cloud certification specifically designed to map to real-world demands of cloud operations job roles, validating essential skills necessary for excelling in cloud environments.

Gain hands-on experience across multiple environments

Cloud+ is the only performance-based, vendor-neutral infrastructure certification on the market validating essential skills required of professionals working in multi-cloud environments.

Build your credibility

Cloud+ aligns with global tech standards and best practices and proves professionals working in cloud environments have the hands-on and technical skills required in cloud computing.

[Organization name] is proud to be a CompTIA authorized partner. Take the next step in your tech career with a Cloud+ certification.
