Classroom Trainer Exam (performance-based)
Planning, preparing & submitting your recording

All CompTIA CTT+ candidates must successfully complete the CTT+ Essentials exam (computer-based test) and only then submit a recording of their classroom training session (CompTIA CTT+ TK0-202) which will be evaluated and scored.

PLANNING THE PERFORMANCE-BASED CLASSROOM TRAINER RECORDING
The CompTIA CTT+ performance-based exam provides candidates with the opportunity to showcase their skills in training. Plan the session carefully. Make sure that all the objectives are addressed. Be sure to consider the following when preparing your submission.

Content
Because the CompTIA CTT+ certification is recognized in many industries, it is important for the program to establish and maintain consistent and credible standards. The instructional content of the recording should be clearly professional in nature and be of sufficient complexity to provide the depth and scope for scoring judges to assess the performance adequately in each of the objectives.

Structure
The performance-based examination must show candidates demonstrating all 12 objectives. The instructional module should be complete, with a clear beginning, middle, and end. The module, of course, may be a portion within a longer class, but it should have its own instructional objective(s). If it is part of a larger class, be sure to provide information about how this segment fits into the larger class. Only one trainer should provide instruction per recording.

Setting
For the training event, choose a quiet, well-lit site that allows a video camera to record voices clearly and to show media or other instructional materials that candidates use, and that captures candidates’ movements, and class interactions.

Class Size
A minimum of five adult learners must appear on the recording. The camera should occasionally pan the room so the scoring judges can confirm the learners’ presence and interactions.

Authenticity
The learning situation, to the extent possible, should be authentic. The participants actually should be learning new knowledge and skills. Highly artificial or contrived situations could reduce the instructor’s credibility.

Duration
The entire recording should be between 17 and 22 minutes. If shorter than 17 minutes the submission will be rejected while submissions longer than 22 minutes will be accepted, but the scoring judges will not continue watching beyond the first 22 minutes.

Media and File Formats
Recordings are accepted in the following formats: MPEG, MP4, WMV, AVI, or FLV. It may be uploaded or mailed in. For full details, see section Submitting the Recording and Forms further in this document.

Equipment
Using the best videotaping equipment will help ensure that the recording turns out well. The training site or school might have video equipment designed for this specific purpose and might be able to provide someone who has good working knowledge of videotaping who can assist with the taping. However, candidates may need to use personal equipment. Many hand-held cameras can produce the quality that is needed.
Editing
No editing of the recording is allowed. The CompTIA CTT+ program defines editing as cutting and splicing of tape. However, candidates may stop and restart the recording one time during the recording segment to allow learners sufficient time to practice a new skill. Under very specialized circumstances, a second stop may be accepted. For example, if the class must move locations for a "lab" exercise, a second stop would be permitted. Be sure that enough of the activity is visible before the tape is stopped and resume filming as the practice session comes to a close to show how the transition occurs from one activity to the next. The recorded instruction module must be presented in the sequence in which it was given.

Skills
The recording and accompanying documentation need to provide clear evidence of the candidate’s skills to perform the objectives listed on earlier in this document.

Review
Using the Scoring Guide included, view and score the recording before submitting it in for official scoring.
• Check to make sure that all of the objectives will be evident to the viewer (the scoring judges).
• Are the learners visible?
• Are the visual aids clear and visible?
• Is the picture clear?
• Is the sound clear?

PREPARING THE CLASSROOM TRAINER RECORDING
The CompTIA CTT+ program allows considerable flexibility as to the kind of training that is recorded, the way in which it is presented, and the kinds of media or instructional strategies used, so long as the session lets candidates fully demonstrate the required competencies.

Because this is an unedited showcase performance, candidates will need to plan the recording carefully. Filming any 20-minute slice of instruction will not necessarily provide evidence of candidates’ ability to perform the required skills.

Outlining the presentation and rehearsing it several times before videotaping will help in creating a successful recording. Another possibility is to video several presentations and select the best, critiquing the performance on the basis of the CompTIA CTT+ Classroom Trainer Performance-based Exam Scoring Guide. As candidates critique their performance, they should use the CompTIA CTT+ Scoring Guide to consider how well the recording reflects upon their ability to perform the following required skills.

1. Performing all of the required skills for each competency
Many of the presentation skills described in the objectives are interrelated. Even though candidates will be assessed on each objective, the same behavior could provide evidence for a number of objectives. For a successful recording, it is important that candidates plan a seamless, integrated module rather than one that abruptly switches from one objective to another.

*Remember: Just a statement in the Performance-Based Exam Documentation Form testifying that candidates involved the learners in group activities in a training segment not shown on the recording cannot substitute for showing the actual interaction.

2. Engaging (not merely talking at) the learners (student-centered learning)
The scoring judges are looking not only at how well candidates understand the material but, more importantly, how well candidates help the learners understand the material. If candidates instruct primarily by lecture or demonstration, it is critical to incorporate strategies designed to engage the learners and, at the same time, let candidates know how well they are learning the material.
3. Keeping the learners focused on the subject
   The most successful recording includes a brief introduction that tells the learners and the scoring judges what will be covered in the next 20 minutes. To satisfy the requirements for organization and motivation, candidates will need to provide a kind of road map that keeps the instruction—and the learning—on track. The road map can be visual or verbal, obvious or subtle.

   Do not feel the need to rush through a module to reach closure. It may be sufficient to summarize what the learners have covered to that point or better yet ask the learners to recapitulate what they have learned.

4. Providing real training
   One question likely to arise concerns authenticity: Should trainers plant certain kinds of behavior or questions within the class so that you can provide evidence of how they respond? The answer is a definitive no. Be assured that the scoring judges are looking for the big picture with each objective.
Classroom Trainer Exam (performance-based)

COMPLETING THE FORMS
The writable forms may be downloaded separately from the link below. Candidates are able to save it to a PC, and then edit and print it for inclusion with the submission. http://certification.comptia.org/getCertified/certifications/ctt.aspx

- Form A - Include CompTIA Career ID Number (see note below)*.
- Release Form B – Each person recorded must print and sign this form.
- Documentation Form C - Answer all the questions.
- Payment Form D – Include one of the following forms of payment:
  - Voucher number: If a voucher has been purchased be sure to include the number on this form. Vouchers are available here: http://www.comptiastore.com/default.asp
  - Credit Card information: If CTT+ Submission is to process the payment be sure to include the cardholder’s name, billing address, signature and email address if someone other than the candidate is paying for the exam.
  - PayPal: During the online submission process the option to use PayPal is available. A PayPal account or credit card may be used to pay for the exam fees. The bottom portion of the payment form may be left blank if you plan to pay using the PayPal option.
- Photocopy of the TK0-201 Essentials Score Report (computer-based exam) (Do not send the original.)
- Photocopy of a valid government photo ID (driver’s license, passport, etc.) Work IDs are not acceptable.

*How to Get your CompTIA Career ID Number:
Please visit http://certify.comptia.org. Have your computer-based (knowledge) test score report handy to refer to some of the information contained therein. There will be instructions on how to log in. You will need to create your own password. Once you have verified/updated your demographic information, you will be given a CompTIA Career ID Number. The ID number starts with COMP.
Classroom Trainer Exam (performance-based)

SUBMITTING THE RECORDING AND FORMS
There are two options for submitting your exam:

Option 1: Online Upload (recommended)
The forms and recording can be uploaded at the cttsubmission.com website. Follow the instructions on the home page for a successful submission. The forms will be uploaded first and then you upload the video file.

- The forms need to be combined in one PDF no larger than 6MB in file size.
- The recording must be in MPEG, MP4, WMV, AVI or FLV formats.
- The recording file size will need to be fewer than 200 MB. If the file is larger than 200 MB you may still submit the file but will need to use Share file link. Contact admin@CTTSubmission.com for any questions.
- A hard-wired connection instead of a wireless connection is recommended when making your submission to avoid interruption of uploads.

Option 2: Mail/Courier*
Compile the forms (remember to not send originals) and prepare the recording file in one of these formats:

**CD**: Recordings submitted on CD must be in MPEG, MP4, WMV, AVI or FLV formats.

**DVD**: Recordings submitted on DVD must be supplied on DVD-R (DVD minus R) media. Note: Must be playable on a standalone DVD player or PC with DVD playing software. DVD’s cannot be plain media files that require a PC for review. DVD’s should be region free or region one (North America). Please note that there will be an additional charge of $35 for converting your DVD to the preferred formats listed above.

Mail your forms and recording to:
CTT+ Submission
C/O Ingenuiti
2876 Guardian Lane
Virginia Beach, VA 23452 USA

It is recommended to use a tracking service when you mail in your submission.

*Please note there will be an additional charge of $35 for recordings that are mailed, to cover the costs of processing, and uploading the files. If your video requires us to convert it to one of the accepted formats there will be an additional $35 for the conversion fee.

For South Africa Candidates Only:
The CompTIA South Africa Office provides a service to South African CTT+ candidates only to collect payments at the published ZAR exam fee for the CompTIA CTT+ VBTs. It remains the responsibility of the CTT+ candidate to upload his/her own VBT, although we do have independent service providers that offer this service at an additional fee. Please do not deliver or post VBTs to the CompTIA Johannesburg office.

Please contact Loraine Vorster at the Johannesburg office at (011) 787-4846 or e-mail lvorstera@comptia.org for more information.
Classroom Trainer Exam (performance-based)

**TIPS FOR A SUCCESSFUL RECORDED SESSION**

- Use a new, unused video/CD or DVD for this submission.
- Use a tripod. A wobbly recording will distract the viewer.
- Graphics, blackboard writing, etc., should be clear and legible. Writing legible to the human eye may not be legible to the camera's eye. Be careful of glare from chalkboards or white-boards. Use markers on non-glossy paper taped to the board.
- Use only one camera. Positioning the camera at the side of the classroom will enable capturing the learners as well as the instructor.
- If moving the camera during taping, set the zoom lens to its widest setting. This will reduce the shakiness of the picture.
- More light will improve the picture quality. Candidates may want to use a camera light to enhance the quality of the submission. However, do not shoot into the light source. For example, if the blinds are open, shoot with the windows behind the camera.
- Sound presents one of the most difficult issues for videotaping. It may be very difficult to hear the trainer and the learners. What is discernible to the human ear in person may not be so on recording.
- If at all possible, wear a mic. Otherwise, speak slightly louder than normal will solve this issue. Test the sensitivity of the microphone by doing a few practice tapings. Instruct class members to speak up or you may want to repeat the question. Candidates may want to attach a separate external microphone to help produce better-quality sound.
- Candidates may want to turn off any fans, air conditioners, or laboratory equipment. Candidates may need to sacrifice light from a window source if taping near the windows picks up outside noises, particularly from traffic. Using an external microphone (not the microphone on the camera) will help reduce extraneous noises.
- Make sure that the camera is running before instruction commences. A few seconds’ delay in the beginning can cause the loss of important information.

**Note:** Candidates should always keep a backup of the recording submitted. Although recordings are rarely lost or damaged, it is important that candidates have a backup to submit in the event that loss or damage does occur. CompTIA will NOT return recorded submissions to candidates.

**PREPARING THE PERFORMANCE-BASED EXAM DOCUMENTATION FORM**

As a precaution, candidates are advised to make several copies of the Documentation Form C so they can freely plan and revise the answers before writing the final version to submit with the recording.

Candidates need to ensure they are submitting the correct forms with the recording. For Classroom Trainer recording there are Classroom Trainer forms and similarly for Virtual Classroom Trainer recordings there are Virtual Classroom Trainer forms. The forms for the two exams are different.
Classroom Trainer Exam (performance-based)

How are the Recordings and Documentation Formsscored?
Scoring judges are used to evaluate the recordings and the Submission Documentation Forms. Each looks for clear evidence of each objective and awards a score based on the definitions provided in this handbook. They will not be counting the number of times a candidate does something. Instead, they will be judging, overall, how well the candidate performs the set of skills in each objective and how the needs of the specific lesson are met in relationship to the objectives.

Performance on each objective is assessed on a four-point scale:

4 — Outstanding
3 — Successful
2 — Limited
1 — Seriously Deficient

The specific criteria that describes how each of the four score points link directly to objective descriptions appear in the Scoring Guide section.

A score of 1 (seriously deficient) on any of the 12 competencies being assessed on the recording or on the Documentation Form will cause an automatic failure for the performance assessment. Depending upon the outcome from the first scoring judge, your tape may be scored by multiple scoring judges, each viewing and assessing the recording individually and independently of each other.

Who scores the recordings and the documentation forms?
To qualify as a CompTIA CTT+ scoring judge, the three following requirements must be met:

1. Must be an experienced instructor or professional trainer and must have mastered the CompTIA scoring Calibration Competencies.

2. Must attend CompTIA CTT+ scoring workshops to be thoroughly trained on the standards, and must attend recalibration sessions throughout the year.

3. Must demonstrate ability to score sample CompTIA CTT+ recordings and Documentation Forms accurately and fairly, according to the standards set by the CompTIA CTT+ committee.

As a group, the CompTIA CTT+ scoring judges are ethnically diverse, include both men and women, and have a variety of instructional backgrounds.

Statistical analysts continually monitor the scoring reliability of all the scoring judges. Any scoring judge who is not scoring reliably will receive additional training. However, because of the importance of CompTIA CTT+ certification, if a scoring judge cannot maintain the high-scoring standard required for this program, he or she will not be allowed to continue in the capacity as a CompTIA CTT+ scoring judge.

Exams are processed and scored within 2 to 3 weeks from the time of their receipt. Please e-mail any questions or comments to: questions@CTTSubmission.com
### Classroom Trainer Exam (performance-based)

#### SCORING GUIDE

**Domain 1: Planning Prior to the Course**

**Subdomain 1A:** Review of Organizational Needs and Learners’ Backgrounds in Relationship to Course Objectives

**Skills to:**
- Research additional content information to address potential points of confusion or resistance
- Assess learner’s current skill level and compare results with course prerequisites.
- Assess organizational needs for additional learning outcomes
- Analyze results of needs assessment of the learner in relation to learning objectives
- Modify learning materials to meet specific needs of organization, learner, situation or delivery tools without compromising original course design

SCORING GUIDE (CONT'D)

Domain 1: Planning Prior to the Course

Subdomain 1B: Instructional Environment in Relationship to Learning Objectives

Skills to:
- Review pre-course communications with learners (for example, course announcement, confirmation, description or agenda, and prerequisites and pre-course assignments, system check activity, support/helpdesk information, download instructions for materials)
- Alter recommended physical or virtual classroom set-up according to specific learner and organizational needs
- Confirm timings and logistics for course (for example, scheduled breaks, meal arrangements, labs, and activities outside of classroom, time zones
- Ensure that learning-related tools and equipment are properly set-up and working, and verify that all learner exercises can be completed as intended (for example, hands on practice, on-line tool use)
- Establish a safe learning environment (for example, physical, auditory, chat, agreements, proprietary client information)
- Confirm with learners that the learning environment, both physical and virtual, is comfortable (for example, lighting, sound, conference call or VoIP audio, on-line tool is functioning well)
- Prepare contingency plans for unique class events (for example, fire drill in classroom, loss of connection, some users not able to view materials)

Domain 2: Methods and Media for Instructional Delivery

Subdomain 2A: Selection and Implementation of Instructional Methods

Skills to:
- Use delivery methods as intended by the course designers
- Adapt delivery methods to meet a variety of learning styles
- Engage learners through multiple delivery techniques as appropriate to the material, the learners and the situation
- Organize and introduce content in a variety of ways (for example, compare and contrast, steps in a process, advantages and disadvantages)
- Identify and implement learning activities that are relevant to the course objectives
- Monitor learner comfort level during the use of participatory activities
- Stimulate interest and enhance learner understanding through appropriate examples, demonstrations, media clips, slides, anecdotes, stories, analogies, and humor
- Use activities that allow learners to contribute to the discussion and review and apply content at appropriate intervals

Domain 3: Instructor Credibility and Communications (Cont’d)

Subdomain 3B:
Instructor Communication and Presentation Skills

Skills to:
- Pronounce words correctly at appropriate tempo and use suitable grammar and syntax, recognizing potential for an international audience
- Explain and clarify content points through inflection, emphasis, and pauses
- Ensure verbal and non-verbal communication is free of bias (for example, sexual, racial, religious, cultural, and age)
- Employ purposeful pointers, body language and/or vocal intonation to enhance learning and call attention to critical points
- Minimize distracting trainer behaviors (for example, playing with object in hand, making noise with change in a pocket, or nervously rocking or pacing, excessive mouse movement, background noise on audio, key board noise)
- Use body language and other non-verbal techniques to minimize or eliminate learner disruptions. Use course overviews, advanced organizers and session summaries at appropriate times to orientate learners and link key learning points

<table>
<thead>

**Subdomain 4A: Establishment and Management of a Learner-Centered Environment**

**Skills to:**
- Open a training session in a positive way
- Communicate the course plan to the learners
- Communicate learner performance objectives as indicated by course design
- Obtain input from the learners about their personal objectives and expectations
- Reconcile any discrepancies between learning objectives and learner expectations
- Establish an environment that supports learning and maintains focus on meeting stated learning objectives
- Establish a learning environment free of bias, favoritism, and criticism that optimizes the productive participation of all the learners
- Manage course flow and pace activities based on learner needs while ensuring that all learning objectives are met
- Provide opportunities and assistance for learners to identify and achieve initial, intermediate and terminal objectives
- Facilitate group dynamics in a positive way, including encouraging interactions that are respectful of the rights of individual learners, and redirecting unproductive digressions
- Create opportunities for learners to work with and learn from each other to attain the learning objectives while building individual learner confidence
- Handle learner disruptions as discreetly as possible

| | Employs a variety of strategies to motivate learner. | Connects new lesson content to learner knowledge. | Appropriately acknowledges learner remarks. | }
### Domain 5: Evaluate the Training Event

**Subdomain 5A: Evaluation of Learner Performance during and at Close of Instruction**

**Skills to:**
- Monitor learner progress during training
- Develop, select, and administer appropriate assessments that are in compliance with recognized and accepted measurement principles
- Gather objective and subjective information that demonstrates learner knowledge acquisition and skill transfer
- Compare learner achievements with learning objectives
- Suggest additional training or resources to reinforce learning objectives

Classroom Trainer Exam (performance-based)

SCORING GUIDE (CONT’D)

Domain 5: Evaluate the Training Event (Cont’d)

Subdomain 5B:
Evaluation of Instructor and Course

Skills to:
• Evaluate the success of the course design, including modifications made during delivery
• Critique one’s own preparation for and delivery of a training event
• Evaluate impact of external influences on the training event
• Evaluate the effectiveness of the training to meet the learning objectives
• Use evaluation results to adjust and improve one’s own performance in next training event
• Prepare a report documenting end-of-course information
• Report recommended revisions and changes to existing materials and suggestions for new programs and activities, as appropriate
• Report information about learning, physical and virtual environments
• Submit reports to customers in accordance with contractual agreements or requests

Classroom Trainer Exam (performance-based)

PERFORMANCE-BASED EXAM RECORDING CHECKLIST FOR QUALITY CONTROL
Before submitting the CompTIA CTT+ Performance-Based exam recording, please use the Quality Control Measures checklist below. Remember that this is a certification examination and requires serious planning and preparation. The submission should be a demonstration of candidates' instructional practices presented in a 17 to 22-minute instructional module.

Evidence suggests that the most successful submissions are of the highest quality. We encourage all candidates to take quality control measures when recording their session.

Candidates should view the recorded performance chosen as the Performance-based exam submission before submitting it for official scoring, and use the Scoring Guide to score their own performance. As the recording is viewed, ask the following questions:

1. Are the required objectives clearly evident both audibly and visibly on the recording?
2. Are the required objectives clearly evident in the Documentation Form?
3. Did you review learning objectives and match them to learner and organizational needs? How?
4. Did you create an environment conducive to learning? How?
5. Did you select and implement delivery methods? How?
6. Did you demonstrate instructional media? How?
7. Did you demonstrate professional conduct and content expertise? How?
8. Did you demonstrate effective communication and presentation skills? How?
9. Did you establish and maintain a learner-centered environment? How?
10. Did you use question types and techniques effectively? How?
11. Did you address learner needs for additional explanation and encouragement? How?
12. Did you motivate and reinforce learners? How?
13. Did you evaluate learner performance throughout the training event? How?
14. Did you evaluate trainer performance and delivery of course? How?
15. Does the selected module have a beginning, middle, and ending?
16. Are the objectives of the instructional module clearly stated?
17. Is the instruction module organized?
18. Are at least five (5) learners visible in the classroom?
19. Are the learners actively engaged in the lesson?
20. Is the sound quality clear and loud enough?
21. Is there interference on the recording such as static, noise from cars, radios, or fans?
22. Is there no more than a maximum of one stop in the recorded performance? (If a second stop has been used, is the documentation of the need clear and complete in the paperwork?)
23. Are the graphics used during the instruction legible?
24. Is the room lighting appropriate?
25. Is everything that you want the scoring judges to consider actually shown on the recording?

- Ask someone else to view the recording and assess it.
- Create at least one backup recording of the submission. All submissions become the property of CompTIA and will not be returned to candidates.
- Make copies of all submitted documentation for record keeping purposes.
Classroom Trainer Exam (performance-based)

PERFORMANCE-BASED EXAM RETAKE POLICY
Candidates who are unsuccessful in completing the performance requirement can attempt the performance exam again. A candidate's computer-based exam will remain valid so long as the exam content/objectives have not changed. Submission requirements for Performance-Based Exam retests are the same as for first-time submissions.

If a candidate desires to appeal the scoring of a submitted recording, CompTIA will allow an independent review, provided the request is submitted within 30 days of the score report. To request such a review, send a formal request in writing accompanied by a payment for $100 USD. Include in the letter the following information: name, date of submission, score report date and CompTIA Career ID Number/ Candidate ID Number (Number begins with COMP). Please send this appeal to:

CTT+ Submission
C/O Ingenuity
2876 Guardian Lane
Virginia Beach, VA 23452 USA

RE-CERTIFICATION
In keeping with the current CompTIA policies, there is no re-certification requirement for the CompTIA CTT+ Classroom Trainer certification.

RETEST POLICY
CompTIA's complete retake policy can be found at http://certification.comptia.org/Training/testingcenters/policies/retake.aspx
